# Base & Ferrous Metals Investment Summit

Thursday, 17 May 2012 | 8:30am – 7:30pm

Objective Capital's Base and Ferrous Metals Investment Summit brings together London's financial community with an exclusive selection of current and future base metals producers in the heart of the world's financial system.

Our series of Investment Conferences and Summits concentrate on the metals, minerals and energy sectors: high value, capital-intensive businesses which require large scale funding. Both sides of this relationship are looking for new opportunities for funding and quality deals. Whether you are a metals, minerals or energy company, the Objective Capital Investment Conferences and Summits are an opportunity you should not miss.

These engaging events are also a must attend for anyone with a serious interest in investing in the mining industry – whether they be family offices, fund managers, investment bankers, venture capitalists or high net worth individuals.

Each of our Summits focuses exclusively on a specific sector of the mining industry. The dynamic 'non-duplication' format of presentations interspersed with guest speakers provides a compelling opportunity to learn about the state of the market. The intensive programmes are provided by world-class speakers from global companies bring you up-to-date with the latest developments in the sector, the commodities and the companies involved. ***Who better to discuss the global outlook than the very companies exploring and extracting them!***

Each of the Objective Capital Conferences and Summits is split throughout the day with generous allowance for all important networking opportunities. The exhibition areas also house several booths and provide for further networking and business opportunities.
