Global Mining Investment Conference

Tuesday - Wednesday, 28-29 September 2010 | 8:30am – 9:00pm

Objective Capital's Global Mining Investment Conference brings together providers of capital with an exclusive selection of current and future commodities producers in the heart of the world's financial system.

Our Global Mining series of investment conferences concentrate on the metals, minerals and energy sectors: high value, capital-intensive businesses which require large scale funding. Both sides of the equation are looking for new opportunities for funding and quality deals. Whether you are a metals, minerals or energy company, the Objective Capital Global Mining Investment Conferences are an opportunity you should not miss.

These engaging conferences are also a must attend for anyone with a serious interest in investing in the sector – whether they be family offices, fund managers, investment bankers, venture capitalists or high net worth individuals.

The event's dynamic 'non-duplication' format of presentations interspersed with guest speakers focuses predominantly on the global marketplace. The intense programme is provided by world-class speakers from global companies to bring you up-to-date with the latest developments in precious and base metals, diamonds, mineable energy products and bulk commodities. ***Who better to discuss the global outlook for commodities than the very companies exploring and extracting them!***

The Objective Capital Global Mining Conferences are split throughout the day with generous allowance for all important networking opportunities. The exhibition areas also house several booths and provide for further networking and business opportunities.

Who should attend?

- Fund managers
- Investment bankers
- Senior executives of resource companies
- Investor relations
- Private investors
- Venture capitalists
- Brokers
- Analysts

Attendance at the Conference is **free & by invitation only**. Attending the Gala Dinner costs £170 + VAT. To request an invitation, please email gabriel@objectivecapital.com
